A. Completing this form.

For consideration of this waiver, you must complete this form and attach the supporting documentation listed below. Incomplete applications cannot be reviewed. Students must re-apply for a dependency override each year. **The deadline date for submission of all materials is the 12th class day of the first semester of the student's enrollment for the academic year.**

B. Purpose of Dependency Override

According to the federal regulations, dependent students are required to use natural or adoptive parents' information only when completing the Free Application for Federal Student Aid (FAFSA). On a case-by-case basis the Office of Financial Aid may make a professional judgment and waive the submission of parental information for dependent students.

By Law, The following conditions do not qualify as "unusual circumstances" or do not merit a dependency override (1) parents refusing to contribute to a student's education; (2) Parents unwilling to provide information on the application or for verification; (3) parents not claiming the student as dependent for income tax purposes ;(4) students demonstrating self-sufficiency. Also, a student not living with their parents does not automatically qualify the student for a dependency override.
